

ALPHA CHI SIGMA

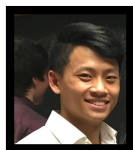

The Zeta Quark

Alumni Secretary: Sasu Tuladhar

Ways to Get Involved

The Zeta chapter is adding different ways for alumni get involved with us! We started a networking database for alumni and current brothers to help with the job search. If you are interested in being part of this, please contact the email below. We are also looking for speakers for an alumni chat to talk about life post-graduation.

MA Highlight – Caleb Ju

We started the semester focusing on the two objects 1) to bind its members with a tie of true and lasting friendship and 2) to strive for the advancement of chemistry both as a science and as a profession.

This semester, with the help of the hard-working chairs, we pushed for some ambitious new programs and resources for our members. Throughout the process, I've felt AXE is moving towards its goals. At the same time, we as an organization are making mistakes, but more importantly, we are learning from the mistakes to make our organization better for its members. My vision is that AXE becomes *the* sciences organization for those looking for friends and opportunities to grow professionally.

ALUMNI NEEDED FOR PART 1!!

Initiation is November 10.

Fall 2018

Brothers enjoying the pledge event!

Alumni return for UIUC Homecoming!

Lindsey Dzierozynski

Major: Biochemistry

Future Goals: Work in industry at an R&D Lab. I'm extremely passionate about virology and viral disease and would love to work with that. I am also interested in public health.

Experience with AXS: I honestly believe that I've been able to grow as a person. I've learned a lot about the industry and developing my professional network. I feel confident in my abilities and I know that I learned these skills through AXS and my brothers.

Executive Board Fall 2018

New at the Zeta Chapter

This semester has been busy for our chapter. We welcomed fifteen new pledges and have had a lot different activities implemented. We have started to have more brother lead events like a MCAT/GRE prep workshop, resume review, and a networking event with another RSO. We also gathered and made a collegiate job board so our brothers can benefit from their connections.

In terms of brother bonding, we have events such as camping, apple picking, and movie nights! This semester, to create a better bond between pledges and brothers, we have dedicated 30 minutes of our chapter time to interact with them through fun activities. We are looking forward to a successful semester!

Alex Mrugala

Major: Chemical Engineering

Future Goals: Work in industry as a production engineer or pursue a PhD to become a professor.

Experience with AXS: I was able to make some lifelong friends, develop my leadership and social skills which will help me throughout my career.
